Congrats on your decision to apply to Study Abroad or Away!
(We think it’s the best decision you’ve ever made.)
STEM Abroad & Away
LIFELONG BENEFITS OF THESE OPPORTUNITIES

• Scientific research is a global endeavor.

• On a resume, study abroad & away experience is now nearly as indispensable as good computer skills or proficiency in English.

• When applying for the NSF Graduate Research Fellowship, students must show Broader Impacts. Studying abroad or away means having initiative and a more diversifying perspective which counts as a Broader Impact.

• Students build cross-cultural skills and international experience required to participate fully in the modern, global, and collaborative academic community or industry/business.
Things to consider:

• What programs will work best for you academically?

• DO NOT choose a program based on:
  – Location
  – Weather
  – Imagined Prestige
  – Your parents told you to go there
  – Your best friend is going there too
  – Dreams of Hogwarts
Other things to note:

- Learning/test taking accommodations do not automatically transfer for study abroad and are usually less generous than at Caltech.
- Applicants need to have the resilience and coping skills to deal with a new study and living environment without the ease of access to Caltech services and level of support that they have at Caltech.
- Study abroad/away students need to have good time management skills because there are no extensions.
- Financial aid or supplemental costs.
GPA Requirements

The Caltech Scholars Programs require a minimum 3.0 GPA for all programs except for UCL (3.3*), Ecole Polytechnique (3.3), Chicago (3.5), and Cambridge (3.6 overall/3.7 in Option**)

Other Exceptions for GPAs

*UCL requires a 3.9 GPA minimum, plus very strong reference letters, for Computer Science majors and a minimum 3.5 GPA for Biological & Biomedical Sciences.

**Cambridge: 3.7 and up in option classes/tripos classes. Math at Cambridge 3.8+. Chemistry Part III – need 3.8+. These are master’s level classes – need background. Strong letters of reference are pertinent when applying to Cambridge.

DTU occasionally accepts students with a 2.8, who have rising GPA & 3.0 or better grades in their option
How many programs should I apply for?

• If you are applying to Cambridge, UCL and/or Chicago, you should have a third choice, as those are our most popular programs.
  • Cambridge has 10 places (6 Michaelmas, 4 Lent)
  • Chicago has 2 places
  • Copenhagen has 5 places
  • Edinburgh has 5-20 places
  • UCL has 5-10 places
  • Melbourne and EPT has no limited number of places
A complete application includes:

1. The Application Checklist
2. Caltech Scholars Program Application Form
3. Proposal, which includes essay, program fit, and proposed courses
4. Unofficial Transcript
5. Course Degree Audit
6. 2-3 Letters of Recommendation
This checklist is also to guide you when putting your application items together. Make sure it is in this order.

Remember, do not check off the boxes in the bottom section.
Writable PDF of application is available on the FASA website.

Download it and easily type in your responses or print it out and legibly handwrite in black or blue ink.
Who should write your letters of reference?

- **1st letter** must be from someone who has taught or supervised you in your **option or a closely related area**, from a professor or instructor at Caltech. Cannot be TA or peer of any kind.

- **2nd letter** must be from someone who has taught, advised, or supervised your research in your primary STEM **option or closely related area**. Second ref be from a professor, instructor, graduate TA, research supervisor, or Caltech advisor. **No employers!**
• **NO** humanities or social science profs for letter 1 or 2, even if you have a 2nd option in HSS.

• **Optional 3rd** letter can be from someone else (but not a peer or relative) who knows you well and can show something the other two letters cannot. Can be a HSS prof, an employer, or coach.

Letter writers must complete the reference form (available in writable PDF on our website) and they also must **submit a typed and signed letter**. They can send these to FASA through campus mail. If not at Caltech, they can snail mail it to our office. You can hand carry it to us, as long as it is in a sealed envelope with the letter writer’s signature on the seal.
Caltech Scholars Programs Reference Form
Official Reference Form for Study Abroad/Away Applicants
Please return by January 27
To: Lauren Splider, Director, Fellowships Advising & Study Abroad
California Institute of Technology
Mail Code 319-87, Pasadena, CA 91125

* This section to be completed by student *

Name of Applicant: __________________________ Option: __________________________

☐ Sophomore ☐ Junior

☐ Transfer ☐ 3-2

Program(s): Check all that apply

☐ Cambridge University (Michaelmas - Fall Term) ☐ University College London (Fall Term)

☐ Cambridge University (Lent - Winter Term) ☐ University of Edinburgh (Fall Term)

☐ University of Copenhagen (UCPH) or ☐ DTU (Fall Term) ☐ University of Melbourne (Fall Term)

☐ Ecole Polytechnique (Fall Term) ☐ University of Chicago Study Away (Fall Term)

☐ This is a CONFIDENTIAL evaluation. I hereby waive my access to this evaluation
as per the Family Education Rights and Privacy Act of 1974.

Applicant’s signature: __________________________ Date: _____________

Information for applicant: Students are required to submit two references. The first reference must be from a Caltech professor, instructor, professor or postdoc research supervisor, or the applicant’s academic advisor. All first referees must be in the student’s primary STEM option. The second reference can be from a Caltech professor, instructor, academic advisor, grad TA, university-based research supervisor at Caltech or at another university or national laboratory in the student’s primary STEM option or a highly related area. Note the focus of the reference is on your academic ability in the classroom and not on research.

An optional third reference can be submitted only if this referee can discuss academic attributes not covered by the first or second referee and could come from any individual noted above or from an HSS professor, RA, employer, coaches, etc. Note well that the focus of all letters must be the academic ability of the applicant for study abroad and the applicant’s preparation to succeed at their host university.

Name of the reference writer: __________________________ Reference letter # _________

☐ CIT STEM Professor/Instructor/Advisor ☐ Other Faculty _________________ ☐ Other, specify _________________

Letters may be sent to the FASA Office via campus mail, regular mail, or hand delivered by the letter writer. If the reference is delivered by the student, it must be in a sealed envelope with the letter writer’s signature on the seal. Open letters delivered by the student will not be accepted.

* This section to be completed by reference writer *

Information for recommender: This reference will be helpful in evaluating the applicant’s qualifications for participating in one of Caltech’s official study abroad programs. Please reference the applicant’s academic and personal qualifications as well as character. Students participating in a study abroad program will take courses in or highly related to their Caltech option. Note that this recommendation is not just for internal selection but will also be forwarded to the university abroad if the student is accepted into the Caltech Scholars Program. Please complete all portions of the form as requested and
1.) In addition to this form, please attach a **Letter of Recommendation** commenting on the student’s qualifications, both personal and academic, for study abroad. This reference will be read by faculty at the study abroad university as well as the Caltech selection committee. Please be sure to sign your letter.

2.) How long have you known the applicant? ____________ In what capacity? ____________________________________

3.) How does the applicant compare with the better Caltech undergraduates you have taught? Please complete the evaluation chart below. Check the box that best indicates your opinion of the applicant’s qualifications. Please compare the applicant with other Caltech undergraduates at a comparable level of education and research experience.

1. Mastery of basic knowledge in student’s option
2. Familiarity with and ability to use laboratory techniques
3. Ability to express self orally and in writing
4. Originality and imagination in academic work
5. Capacity for conscientious, hard work
6. Potential for future growth in science and engineering
7. Ability to get things done independently
8. Adaptability to new situations
9. Reliability
10. Impression applicant will make abroad academically and socially

5) From my knowledge of this applicant, I am willing to give my:

- [ ] Full Endorsement
- [ ] Qualified Endorsement

Name (please print) ________________________________________________
Department _______________________________________________________
Title /Position ____________________________________________________
University (if not Caltech) _________________________________________
Signature _________________________________________________________ Date __________________

Please clip (do not staple) your letter of recommendation to this form. Please remember to sign your letter of recommendation.
Caltech Transcript
(can be unofficial)

Note that students are advised to clear up any Extensions and to in their proposal explain any grade issues that they feel should be brought to the attention of CEPSA in the selection process.

- Make sure your grades and GPA are stable or rising. Recommended to mention it in your essay if your transcript reflects challenges or struggles.
Proposal

- Essay (1 page max, single spaced)

- Program fit: In a paragraph for each program you are applying for, describe how the courses you’ve selected (for each program) work with your degree requirements and academic goals.

- Proposed course list(s): requires understanding of each program’s rules
Proposed Course List

• In program preference order and for EACH program you are applying to, list each of the courses you wish to take according to the directions.

• You should consult the handout on each program to ensure that you fully understand the program requirements.

• Note that creating each proposed course list is the most time-consuming part of the application—you may need to contact faculty at the host university, so allow time for a response.

• It is wise to start NOW! This is more complex than you think!

Tips on how to find classes at class choice workshops......
Required Courses Abroad

• Students can get general credit, equivalent credit, option credit or HSS (additional, advanced, or writing intensive.) No need for professor approval until after you are selected for a program.

• Look through the Equivalent Course Guide, sample proposals, surveys, and sample course lists in the FASA Library.

• Look through each university’s courses online.

• If needed, confer with CIT professors to determine equivalency issues (if it is not clear that a course will fulfill a specific option requirement).

• You can take one Course by Correspondence with the approval of the Caltech professor.
Formatting Requirements

- Only hard-copy applications will be accepted. Do not email any part of your application.
- Do not staple pages together, only use paperclips.
- Print only single-sided. NO double-sided documents will be accepted.
- Put your name in the upper right hand corner of every page of the proposal.
- Put the page number in the lower right hand corner of every page of the proposal.
- Assemble in the order outlined in the directions.
Resources

- **Walk-In Hours** are Tuesdays and Thursdays, 9-11am & 2-4pm
- **FASA office library** has previous study abroad student comments and course list examples available for review in library
  - Library is open every Monday-Friday, 8am-5pm, but closed from 12-1pm
- **FASA website:** [http://fasa.caltech.edu/](http://fasa.caltech.edu/)
- **FASA Facebook page:** [https://www.facebook.com/FASA.study.abroad/](https://www.facebook.com/FASA.study.abroad/)
All forms and items need to be turned in directly to the FASA Office*, Room 319, in the Center for Student Services building by 3pm on:
Monday, January 27, 2020
(ALL PROGRAMS)

*Remember everything must be physically brought into the office, no emailed applications will be permitted

No extensions are allowed so make sure you adhere to the deadline if you want your application to be considered.
Cheers! Any questions?
