

Equivalent Course Guide

Updated October 2022

This list does not include core classes, nor does it include option equivalents that are typically taken freshman and/or sophomore year, as such classes should be taken *before* study abroad commences. Course equivalence is based on similarities in course content and what Caltech Study Abroad students have received credit for in the past – it is by no means guaranteed.

Note that this list does not define all equivalent classes. Just because it is not listed does not mean an equivalent does not exist. It is best, therefore, to also go to the catalog and course lists for each program to determine if an equivalent class is available. If there is no active link, it is likely to be an old course that is either renamed or no longer offered.

Note that students studying abroad can take classes not taught at Caltech for option elective or general credit. In fact, students are encouraged to do so to explore new subjects in their option or in other fields.

Please keep in mind that courses, schedules and professors can change. It is possible that some of these classes are no longer being taught, have been renamed, revised, or are taught in a different term or semester. Simply because a class is listed here does not guarantee that you will receive the credit you are seeking. **You MUST still have your professors at Caltech review the current syllabus and course description of each class. The professor who teaches a comparable class at Caltech will decide whether or not you can receive credit equivalent to a required CIT course.** Note that you are not required to check equivalence with Caltech instructors/professors until you are selected for a particular program. However, it is advised that you do so in the case of a required class.

EQUIVALENT COURSE GUIDE

Aerospace Engineering

Caltech Course	Cambridge (M)	Cambridge (L)	L'Ecole Poly	Edinburgh	Copenhagen	Melbourne	UCL	DTU
Ae/APh/CE/ME 101a								Turbulence Theory (41129)
Ae 105a								Intro to Spacecraft Systems & Design (30300)

Astrophysics (see Physics, also)

Caltech Course	Cambridge (M)	Cambridge (L)	L'Ecole Poly	Edinburgh	Copenhagen	Melbourne	UCL	DTU
Ay 20				Astrophysics (PHYS10102)				
Ay 21	Cosmology (Ma PT IIC)							
Ay 101			Stellar Astrophysics (PHY553)					
Ay/Ph 104	Relativistic Astrophysics & Cosmology (Nat Sci III, Physics)							

Ge/Ay 117				Astronomical Statistics & Measurement (PHYS10080)				
Ay 190				Computational Astrophysics L11 (PHYS11037)				

BEM/Economics

Caltech Course	Cambridge (M)	Cambridge (L)	L'Ecole Poly	Edinburgh	Copenhagen	Melbourne	UCL	DTU
BEM 103					Introduction to Financial Engineering (42104)			
BEM 105	Stochastic Financial Models (Ma IID)	Stochastic Financial Models (Ma IID) ^a					Financial Math (MATH0031)	
Ec 122				Essentials of Economics (ECNM10052)	Econometrics 2: Statistic Analysis of Econometric Time Series			
PS/Ec 172								

Bioengineering

Caltech Course	Cambridge (M)	Cambridge (L)	L'Ecole Poly	Edinburgh	Copenhagen	Melbourne	UCL	DTU
----------------	---------------	---------------	--------------	-----------	------------	-----------	-----	-----

BE/Bi 103		Medical Physics (Engineering IIB)					
Bi/BE 129		Pathophysiology of Cancer (P7 PDN II)					
BE 153		Systems and Clinical Physiology (P8 PDN II) Mathematical Physiology (3G2)					
BE 159						Cell Signaling & Neurochemistry (BCMB30004)	
Aph/BE 161							
ChE/BE 163	Molecular Bioengineering I (3G1)						Cell factories: Design, engineering, and analysis (27405)
Bi/BE 182		Development: Cell Differentiation & Organogenesis (P6 PDN II)					
EE/BE/MedE 185					Introduction to Micro-		Micro-2: Micro-

					Mechanical Systems Design & Manufacture (41742)		Electro-Mechanical Systems (33355)
--	--	--	--	--	---------------------------------------------------------------------	--	----------------------------------------------------

Biology

Caltech Course	Cambridge (M)	Cambridge (L)	L'Ecole Poly	Edinburgh	Copenhagen	Melbourne	UCL	DTU	Chicago
